Madam:

Greetings!

This is to signify our intent to undertake the project entitled “Establishment of RBDO Production Facility in Romblon” to process coconut and convert it into cooking oil which is a very important household commodity. The province of Romblon particularly our municipality is a huge exporter of copra, the province’s major commodity. The target market for the product is Romblon itself as we currently import cooking oil outside the province. This is also to support the province’s efforts to value add coconut and to standardize the price of copra to help and inspire farmers to continue farming. We do hope that this partnership between our institutions would redound to Romblon’s progress.

Thank you for your continued support. We look forward to your kind indulgence.
