The Local Government Unit of San Jose extends our appreciation for the Department of Science and Technology grants-in-aid for the project entitled: **Setting the Standards of Food Safety Compliant Food Workstation of Street Food Vendors in San Jose, Occidental Mindoro.**

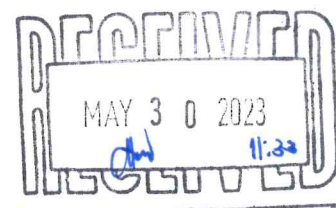

One of the thrusts of this local government is the provision of livelihood assistance and additional capital for small and medium enterprises, with that, we have piloted 29 mobile vending carts that are now operating within the Municipality of San Jose. Rest assured that on the ensuing year 2024, we shall allocate funds for the realization of our counterparts.

In anticipation of your consideration and favorable response, in behalf of our beneficiaries please accept our sincerest gratitude.

Dear Madam:

Greetings!

We are respectfully requesting the DOST MIMAROPA for the provision of food safe compliant food cart for **Five (5) selected street food vendors** from San Jose, Occidental Mindoro who currently use improvised workstation.

This project aims to upgrade the recipients' food safety practices and conditions and to serve as a model for other street food vendors who do not or are not complying with food safety standards. The project will also provide them additional and fix income making their existing livelihood undertakings grow into profitable and sustainable businesses and help them reach at least the same income as the minimum wage earners or even more.

Further, prior to the implementation of the proposed project by the Office of the Municipal Mayor with the Municipal Health Office and the Public Employment Service Office may we also request your Office for a Seminar on Safe Food Handling.

In anticipation of your favorable action, please accept our sincerest gratitude.

Thank you very much and more power.

Very Truly Yours,

REY C. LADAGA
