Ma'am:

Greetings!

A stable water supply remains to be a major problem in our IP community in the Brgy. Pinamihagan. Our indigenous people need to travel by foot to gather domestic water from the nearest source which is kilometers away from their community. Carrying the heavy weight of water containers burdens the IPs and adds to their toil in everyday survival. Some households with extra money resort to hiring motorcycles to convey their water. However, poor families cannot afford it and resort to hand-carrying the water containers to their houses. They travel hundreds of meters by foot to their houses which are in the mountainous part of the community. In this regard, we knock on your kind hearts again to ask for assistance to resolve this burden our IPs experience. We do hope for your kind indulgence in the matter. Thank you and keep safe.

Very truly yours,
