

INSTITUTE OF INFORMATION TECHNOLOGY

RSU Vision

A research-based academic institution committed to excellence and service in nurturing globally competitive workforce towards sustainable development.

RSU Mission

RSU shall nurture an academic environment that provides advanced education, higher technological and professional instruction and technical expertise in agriculture and fishery, forestry, science and technology education, arts and sciences, and other relevant fields of study and shall bridge boundaries across other institutions and communities through responsive, relevant and research-based extension services.

Quality Policy

Romblon State University commits to provide higher education through quality instruction, research, production, and community-based extension services that meet or exceed the requirements and expectations of the university's stakeholders. It will comply with the international standards, applicable statutory and regulatory requirements and continually improves the Quality Management Systems effectiveness through periodic monitoring and evaluation toward sustained remarkable outcomes.

IIT Goals

The Institute of Information Technology is committed to provide relevant and quality training for students in Information Technology and related fields consistently to satisfy the needs of regional and national development thrusts.

IIT Objectives

The Information Technology Education (ITE) programs prepare students to be professionals in this field. Specifically, students by the time they graduate, they are envisioned to be: (a) excellent software developers, system analyst, researchers, ICT instructors and consultants, system administrators, responsible software application users, and the like who will contribute to the country's effort in the field of Information and Communication Technology; (b) competent, self-directed ICT professionals who are equipped with principles and skills in order to respond to the shifting needs of the global industry; and (c) socially responsible Romblomanon RSUians who are committed to the service of the community through ICT.

DR. MA. JOSEFINA P. ABILAY

Regional Director
DOST-MIMAROPA
DOST Compound
Bicutan, Taguig City

Madam:

Greetings!

Public high schools in Romblon continue to strive to improve the quality of education, especially in the Science Curriculum. However, the lack of modern laboratory tools, instruments, and equipment hampers these schools from giving students interactive Science experiences. Most of these schools if not all do not have the capacity to acquire modern laboratory apparatus and instruments due to high cost of investment requirement. Learning about your technology called the Versatile Instrumentation System for Science Education and Research (VISSER), we have a glimpse of hope. In this light, we respectfully request your good office to showcase the VISSER technology in various public high schools in the province of Romblon. Please rest assured that we will provide all necessary requirements in support with our request. Thank you so much for your time and we look forward to your support.

Very truly yours,

CATHERINE BIHEL B. AGUILA, DIT
Dean, RSU-IIT
