

RESPONSE TO RTEC COMMENTS
SETUP CORE ☐ LOCAL GIA ☒

Project Title:	Design, Development, Test, and Market Validation of Marble Spool Insulator
Beneficiary/Proponent:	RSU-CET
Province:	Romblon
Amount Requested:	Php2,542,695.43
Date of Evaluation:	September 22, 2020

RTEC Comments	Response
• Verify the computation for honorarium based on the existing policy.	Verified, honorarium is also mutually agreed by the RSU research team
• Objectives 4 & 5 should be removed; include the determination of production cost in the objectives instead.	Removed objectives 4&5 and added determination of production cost in the objectives, p.2
• Ensure that the efficiency of the marble insulator is at par or better than the existing.	The project itself is R&D in nature to test and validate efficiency of the marble insulator
• Consider citing the safety factor of the marble spool insulators in the proposal.	Safety factor considered, p.2
• Include the "fabrication expenses" to supplies and materials.	Revised the LIB to incorporate comments, p.3
• Provide the complete specifications of the equipment.	Complete specifications of equipment provided, p.3
• Provide counterpart funding for the project.	RSU agreed to provide Php268,363 counterpart for the project
