

### RESPONSE TO RTEC COMMENTS

SETUP CORE ☐ LOCAL GIA ☒

Project Title:	Design and Development of Fuel-Efficient Kiln for salt bed tiles
Beneficiary/Proponent:	Tamaraw Salt Producers Cooperative of Occidental Mindoro (TAMACO)
Province:	Occidental Mindoro
Amount Requested:	PhP 1, 568, 068.00
Date of Evaluation:	March 19, 2024

RTEC Comments	Response
1. Include Tamaraw Salt Cooperatives as a potential adopter and define in the contract their responsibilities.	Noted. TAMACO will be included.
2. Include in the objectives the production cost and the selling price per piece.	Cost and selling price per piece will include in objectives.
3. Consider including the unit economics study in the R&D to establish an attractive price.	Noted.
4. To determine the quality, take a look at the fineness of the powder/raw material to manipulate the size of the pores.	Noted.
5. Connect with the Material Science Division of ITDI for consultation and material testing to proactively address possible issues and check further studies to prevent leaking and contamination.	Noted.
6. Consider establishing future plans on technology commercialization and diversification after market saturation.	Noted.
