

RESPONSE TO RTEC COMMENTS
SETUP CORE ☐ LOCAL GIA ☒

Project Title:	Establishment of Corn and Cassava Common Service Facility for Pinamihagan IP Community
Beneficiary/Proponent:	LGU-San Jose / bLGU-Pinamihagan
Province:	Romblon
Amount Requested:	Php940,316.00
Date of Evaluation:	March 26, 2021

RTEC Comments	Response
<ul style="list-style-type: none">Come up with more research about the use of cassava leaves.	Included in the proposal, p.2
<ul style="list-style-type: none">Indicate in the proposal that there will be an incentive for the LGU personnel who will oversee the project, include it in the LIB as manpower.	Indicated in the methodology of the proposal, p.2-3, included also a budget for personal services under the counterpart of the bLGU in the LIB, p. 5
<ul style="list-style-type: none">Train and designate an authorized operator for the equipment.	Indicated in the methodology of the proposal, p.2-3
Ma'am Jelyn's Comments	
<ul style="list-style-type: none">I agree with RTEC's comments	Noted
<ul style="list-style-type: none">Kung paano magiging sustainable ang project ang concern ko lang. Kung CSF sya, dapat talaga may commitment ang Barangay to maintain the equipment	The bLGU-Pinamihagan would be responsible for the operation and schedule of maintenance of the equipment. Also, the bLGU will be the one responsible to assign a person who will operate the equipment and oversee the project. The assigned operator will be given various trainings such as training on the operation and maintenance of the equipment, 5S, and basic financial management. p.2
<ul style="list-style-type: none">Free lang naman yung use sa facility, ano?	The CSF would gain its initial capital from the bLGU-Pinamihagan. This would be for the electricity and the incentive of the operator to encourage his active participation in the project. In the following operations, the IP who would use the facility would pay a little amount of toll fee for the facility's overhead expenses. Toll fee will be determined with the help of the CEST Champion of the PSTC through financial and profit analysis of the facility. This is to ensure sustainability of the project. p.3
