Madam:

Greetings!

Our project on the “Establishment of RBDO Production Facility in Romblon” is now becoming a reality after all our synergistic efforts. With our building to closely come into completion, environmental matters are now being looked into by the association and all the project stakeholders. An establishment of wastewater treatment facility to comply with the regulatory requirements of DENR is highly necessitated for the project. Thus, our request for another intervention on the said matter. We do hope that this partnership between our institutions would redound to Romblon’s progress.

Thank you for your continued support. We look forward to your kind indulgence.

MR. GERMAN VILLOSTAS
President
