Date: 12-Oct-23

From: F.A.S.T Laboratories

Subject: Shelf Life Cost Estimate for RTE ARROZ CALDO

Thank you for your inquiry regarding F.A.S.T. Laboratories' shelf life study services.

The conduct of the shelf life study includes analyzing the Physico-Chemical, Microbiological and Sensory properties of your products as they go through actual and 'real time' storage at ambient condition 25-30° C .

Following is the description of the study plan to cover for 12 months of shelf life study. The first monitoring point will be at Zero Point, during the time the samples were received, followed by 3rd , 6th, 9th & 12th month testing intervals.

Consolidation and integration of results will be made at the *Zero Point, 6th & 12 months, with a total of three (3) reports.*

Testing Parameters:

Microbiological: Commercial Sterility

Physico-Chemical: Moisture, Water Activity, Fat, Free Fatty Acid, Peroxide Value

Sensory: Descriptive Hedonic (Appearance, Color, Odor, Texture, Flavor)/ Triangle

Sample Quantity: 70 pouches (250g) of RTE Arroz Caldo butter from a single batch for the 12 months of shelf life study.

Cost of Shelf Life Study:

Subtotal	38,595.00
+12% VAT	4,631.40
Total Cost	Php 43,226.40

Terms of Payment:

Payment upon submission (Zero Pt-6th month)	Php 43,226.40
Outstanding Balance (9th - 12th)	-
